lubrication dispensing*

DropsA

Automatic Lubrication System

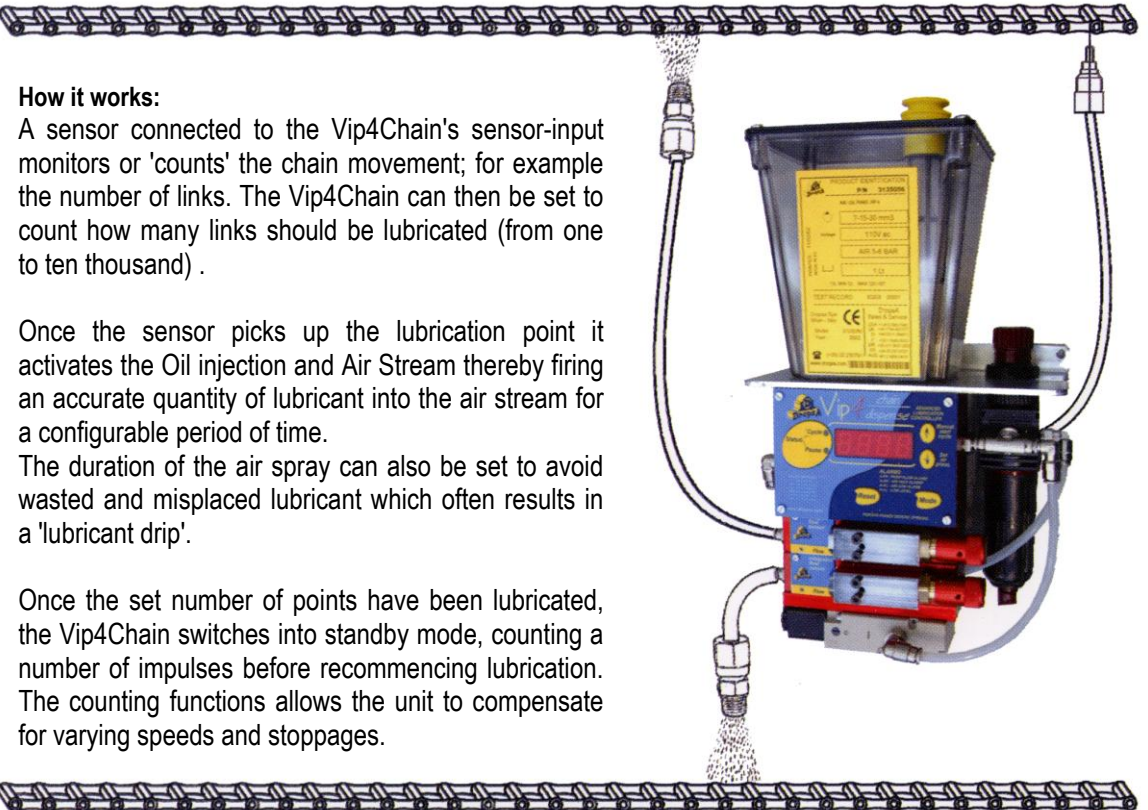

VIP4Chain

GB

The economical, clean and precise way to apply lubricant to chain or conveyor systems. Precise, Controllable dispensing function.

Dropsa's new VIP4Chain Automatic Chain lubrication system is an advanced Chain or Conveyor lubrication system at a very affordable price.

How it works:

A sensor connected to the Vip4Chain's sensor-input monitors or 'counts' the chain movement; for example the number of links. The Vip4Chain can then be set to count how many links should be lubricated (from one to ten thousand) .

Once the sensor picks up the lubrication point it activates the Oil injection and Air Stream thereby firing an accurate quantity of lubricant into the air stream for a configurable period of time.

The duration of the air spray can also be set to avoid wasted and misplaced lubricant which often results in a 'lubricant drip'.

Once the set number of points have been lubricated, the Vip4Chain switches into standby mode, counting a number of impulses before recommencing lubrication. The counting functions allows the unit to compensate for varying speeds and stoppages.

FEATURES :

- Lubrication Cycle settable from 1 to 10,000 impulses
- Lubrication Standby settable from 1 to 10 million impulses
- Air Spray time settable from 0.1 to 9.9 seconds (0.1 second steps)
- Air Spray can be set to activate only when the input signal is present.
- Dispense Mode: Lubrication Cycle start triggers a set number of pump activations
- Any normal switch or proximity can be used as the trigger input.

ORDERING MENU' :

PART NUMBER		Vip4Chain Description
24 V DC	110 V AC	
3135121	3135131	Lubrication Panel Vip4 Chain / Dispense 1 point
3135122	3135132	Lubrication Panel Vip4 Chain / Dispense 2 points
3135123	3135133	Lubrication Panel Vip4 Chain / Dispense 3 points
3135124	3135134	Lubrication Panel Vip4 Chain / Dispense 4 points
3135125	3135135	Lubrication Panel Vip4 Chain / Dispense 5 points
3135126	3135136	Lubrication Panel Vip4 Chain / Dispense 6 points

All units are supplied with connectors and 2 mt cabling for power and chain detection. No proximity or switch is included

Dropsa is a worldwide manufacturer of automatic lubrication systems and components. Contact our office today to learn more about this innovative product.
